Mike -

Per our discussion, see the email below and attachment regarding the property at 2529 E. Norwich Avenue just south of Mid America Steel Drum, St. Francis, Wisconsin.

Walt,

The main reports that were completed for the site on 2529 E. Norwich Avenue (Mid-America Steel Drum Company Inc/Kitzinger, DNR BRRTS # 02-41-560089) would be a Phase II ESA conducted in 2012 and a Status Report submitted in January 2018. The Phase II was associated with the Former D-F Inc property located on the southeast corner of Norwich and Pennsylvania. Samples were collected on the 2529 E. Norwich property to determine if there was contamination migrating from offsite.

A copy of the report can be downloaded from our BRRTS database at:

<http://dnr.wi.gov/botw/GetActivityDetail.do?adn=0241097173&siteId=603600&crumb=1&search=b>

Look for the Phase II dated 2012-12-06.

The attached 2018 Status Report includes the results of sampling conducted at the 2529 E. Norwich Avenue property after contamination was discovered there by the Phase II. The Status Report does not include all the Phase II data.

Monitoring wells MW-14 and MW-15 (located within the Pennsylvania right of way adjacent to 2529 E. Norwich) were installed as part of the investigation of the D-F Inc property. There is historic data available from these wells... but that would take some effort to obtain (data is not summarized together in one report). If this information would be helpful, let me know and I can dig into the file.

Please let me know if you have any further questions regarding these sites.

**We are committed to service excellence.**

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Paul –

At the Mid-America Steel Drum public meeting with EPA and DOT representatives on 1/27/2018 with Congresswoman Gwen Moore at St. Francis High School, some questions came up about the plot of land at 2529 E. Norwich Ave., St. Francis, Wisconsin.

As you know, EPA and WDNR are involved in the property at 3950 S. Pennsylvania Avenue, St. Francis, Wisconsin.

Could you send me any sampling/contamination information from 2529 E. Norwich Ave?

Thanks
